PROFILE

Motivated Computer Science graduate. Gained solid practical experience by applying academic knowledge to real software projects. Aiming to build a career in Software Engineering and UI/UX Design, gaining industry experience while continuing to strengthen technical skills within a professional environment.

KEY SKILLS

- **Programming Languages:** Python, Java, C, Shell, SQL, Kotlin
- **Web Development:** HTML, CSS, PHP, JavaScript
- **Tools & Frameworks:** Packet Tracer, JavaFX, Figma, Android Studio, Firebase, Unity, Github
- **Soft Skills:** Teamwork, Leadership, Problem-solving, Self motivated

ACADEMIC PROJECTS

- **Seizure Detection & Prediction System:** AI-powered health system using smartwatch sensor data for real-time seizure detection, with mobile and cloud integration.
- **Career AI Agent (n8n):** Automated workflow that collects user info via text or voice, generates a tailored CV, and scrapes job listing based on skills and experience.
- **Cybersecurity Lab:** exploited the EternalBlue SMB vulnerability on Windows 7 in a controlled environment; designed a company network in Cisco Packet Tracer.
- **Java Systems:** SIC/XE assembler with loaders, Turing Machine simulator, JavaFX fitness app, and a women's transport Android app.
- **C Applications:** supermarket system, library management tool, and an animated seaside scene with OpenGL/GLUT.
- **Web & Databases:** health information website (HTML, CSS, JavaScript, PHP) and a relational e-commerce database in SQL.

EDUCATION

BSc. Computer Science

College of Computing and Information Technology, Arab Academy for Science, Technology and Maritime Transport, **2026**

IGCSE (8 O Levels, 1 AS)

Cambridge Assessment International Education, **2022**

COURSES & CERTIFICATES

- **Cyber Security Intensive Course (50 practical hours),** ICT HUB Egypt, July 2025 — network, system, and application security; cryptography, incident response, GRC.
- **AI in Business,** AppSoft Egypt, August 2025 — generative AI applications, platforms, ethics, and compliance.
- **Integrated Simulation Technology,** AASTMT, July 2024 — redesigned a chat file format and implemented backward-compatibility features.

LANGUAGES

- **Arabic:** Mother tongue
- **English:** Fluent
